- **Methodologies:** Agile (Scrum)
- **Languages & Scripting:** Python, R, SQL, PL/SQL, DAX, HTML, JavaScript, JSON, XML
- **Libraries:** NumPy, Pandas, Matplotlib, Seaborn
- **Databases:** SQL Server, MySQL, PostgreSQL, MongoDB
- **Reporting & BI Tools:** Excel (Pivot, VLOOKUP, Power Query), Power BI, Tableau, SSRS, SSAS
- **Cloud & ETL Tools:** Azure Databricks, Snowflake, Azure SQL, Delta Lake, SSIS
- **DevOps & Task Management:** GIT, Confluence, Jira
- **Development Tools:** Jupyter Notebook, Visual Studio, PyCharm

PROFESSIONAL EXPERIENCE

DATA ANALYST, Atlantic packaging products ltd., Ontario, Canada

Oct 2023 - Present

- Collected and processed data from databases, CSV files, SAP, and Google Forms. Ensured data quality through cleaning and validation using Power Query and Excel.
- Developed visualizations (charts, dashboards) to communicate insights to stakeholders using Power BI, Tableau, and Python (Matplotlib). Built and maintained data models for reporting and analysis.
- Developed and implemented key performance indicators (KPIs) to measure and track business performance.
- Presented findings and recommendations to technical and non-technical audiences. Collaborated with cross-functional teams to align data analysis with business objectives.
- Proficient in SQL, Python, Excel, and data warehousing concepts.
- Connect Power BI to Azure Database and provide visualization reports.
- Utilized Snowflake for data warehousing and analytics, optimizing data retrieval processes and improving reporting efficiency by 30%. Developed and maintained complex SQL queries to extract insights, support business decisions, and enhance data quality.

Research Analyst, Shaligram Infotech, India

Jan 2021 – Aug 2023

- Developed 10+ advanced Power BI and Excel dashboards for CRM Insights, including Lead Analytics, Loyalty Programs, Dealer Insights, Geo-Tagging, and Redemption Trends, driving actionable insights for key stakeholders.
- Collaborated with the CRM team to apply trend analysis and predictive modelling, enabling data-driven decision-making and fostering business growth. Engineered a comprehensive Market Intelligence dashboard in Power BI, analysing Brand Performance, Promotional Impact, and Dealer Metrics to support strategic initiatives.
- Designed 4+ specialized Excel and Power BI dashboards for Credit Control, covering Sales Trends, Key Product Performance, Top City Sales, Budget Analysis, and Dealer Network Comparisons.
- Provided data-driven insights that optimized sales strategies, enhanced resource allocation, and improved operational efficiency across the organization.
